It has become a habit with a certain class of single men to make free use after nightfall of private lawns, porches and steps to do their billing and cooing or whatever they term it. We would advise them to use their parlors, as was a former custom, rather than run the risk of having the hose turned on them. "A word to the wise is sufficient."

An exchange speaks our sentiments in the following: "Let no man beat you because he is a member of your lodge or church. Hundreds of men join lodges or churches for the sole purpose of using them to beat an unsuspecting brother. The lodge and the church are all right, but there are dead-beats in both who ought to be fired so high that they wouldn't hit the ground until Mary Yellin Lease is elected president."

The best time to trim a tree, where large limbs are to be removed, is in June. A wound then made will heal much more rapidly than at any other season of the year. That is the best time also for thinning out the top, since the removal of small branches then will not induce others to come in their place. Besides one can better determine at that season what branches should be removed.

You can buy trimmed hats at about your own price from now on, at Mrs. Frease's. 2t
